

An Informative Full-Day Seminar:

Fall Protection

For Residential Construction

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about reducing liability and workers' compensation costs.
- ▶ Employees who want to learn safe techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with MIOSHA.

2 Why You Need This Seminar . . .

- ▶ To identify hazards in order to eliminate them.
- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000 and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces workers-compensation costs, improves employee morale and increases production and quality.

3 What You'll Learn . . .

The class will cover fall exposures for residential construction and fall protection criteria per MIOSHA. In addition, there will be an explanation of the new MIOSHA agency directive for residential construction, a video on residential fall protection, and detailed instructions for builders followed by a question and answer period.

Agenda

We offer a flexible program agenda to emphasize the topics you want most.

- ▶ Fall Exposure
- ▶ Fall Protection Criteria
- ▶ Explanation of New Agency Directive for Residential Construction
- ▶ Specific Instructions for Builders
- ▶ Questions and Answers

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

Facilitator

Jim Dykes began his career with MIOSHA in 2001 as a compliance officer with the Construction Safety and Health Division. Although an effective compliance officer, Jim had an interest in the teaching and consulting aspects of MIOSHA. He then joined the Consultation Education and Training Division in December of 2004 as a traditional consultant specializing in construction safety. In his capacity as a construction consultant, Jim will service the Upper Peninsula and several counties in the lower Peninsula.

Previous to joining MIOSHA, Jim spent 23 years as an overhead line worker achieving journeyman status in that field. His specialty allows him to be an excellent resource in the transmission and distribution aspects of high voltage electricity. Jim especially enjoyed troubleshooting difficult situations in overhead line installation and replacement that not only got the job done, but also protected the workers doing this dangerous work. Jim brings this enthusiasm and expertise to his consultation and teaching assignments.

Jim Dykes
*Construction Safety Consultant,
MIOSHA, CET Division*

Program Details

DATE: February 9, 2006

LOCATION: Bay College
1401 South Carpenter Avenue
Iron Mountain, Michigan
